IN CLASS Note

* Final Project:

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
frank	filezilla	Directory	index.	index.
			1) —	
			2) —	
			3) —	

* Learning about Slideshow.

Remind

- Millisecond
- padding: separate the top & bottom.
- nbsp : non breaking space
- attach & detach (Event)
- prevent Default
- var slideshow

loop →

```
9   var image;
10  for ( var i in slides ) {
11    // Preload image, copy title properties, and save in
12    image = new Image();
13    image.src = slides[i].href;
14    image.title = slides[i].title;
15    this.img.cache.push( image );
16  }
17  return this;
18  }
19  // slideshow function() {
```

- start Slideshow
- stop Slideshow

display Next Image
set Play Text
toggle Play
change Speed.

```
16 // evt.preventDefault(e);  
17 //);  
18  
19 window.onload = function() {  
20     var slides = [  
21         {href:"images/gear.jpg", title:"Fishing Gear"},  
22         {href:"images/plane.jpg", title:"Bush Plane"},  
23         {href:"images/release.jpg", title:"Catch and Release"},  
24         {href:"images/lunch.jpg", title:"Streamside Lunch"},  
25         {href:"images/dusk.jpg", title:"Day's End"}  
26     ];  
27     slideshow.loadImages(slides).startSlideshow($("#image"), $("#caption"));  
28  
29     evt.attach($("#play_pause"), "click", slideshow.togglePlay);  
30     evt.attach($("#change_speed"), "click", slideshow.changeSpeed);  
31 };
```
